

25<sup>th</sup>  
Anniversary

Dear Friend of the National Committee to Preserve Social Security and Medicare,

As one of the nation's leading advocacy groups fighting to protect Social Security and Medicare, the National Committee is pleased to celebrate our past achievements and herald future initiatives during our 25th Anniversary luncheon event in Washington, DC on **Thursday, June 12<sup>th</sup>**. We invite you to join us and help support the mission of the National Committee and its newest endeavor, the National Committee Foundation.

Protecting the health and retirement security of America's retirees and their families has been the mission of the National Committee to Preserve Social Security and Medicare for 25 years. From Capitol Hill to the White House and across the country, our organization has represented the unified voice of millions of seniors who want to ensure that America's most successful retirement income and health programs remain sound.

Social Security and Medicare are the bedrock of a secure retirement. Covering 96 percent of all workers, Social Security is the main source of income for America's 34 million retirees and their families. Without Social Security, one out of every two of these seniors would live in poverty. Medicare ensures that seniors 65 and over, regardless of their health status have comprehensive health insurance for the rest of their lives. The National Committee has forcefully defended these successful programs against the ideological assaults and legislative agendas that threaten America's social insurance fabric.

We hope you will join us to celebrate our first 25 years and to launch our next 25 years. If you are unable to attend, please consider making a tax-deductible donation to the National Committee Foundation. Thank you for your help and support.

Sincerely,

Barbara B. Kennelly
