

# Buy *More*... Spend *Less*

Every day, Americans save money through bulk purchasing.

That's why Congress must require Medicare to negotiate the lowest possible prices for prescription drugs. It's a common sense approach to manage the high costs of medicine for seniors.

Millions of Medicare beneficiaries add up to a lot of bargaining power.

We urge Congress to put that power to work for America's seniors.

To learn more about Medicare price negotiation, visit our website at [www.ncpssm.org](http://www.ncpssm.org)
